

Giving Matters

by Susan Durgy, MBA, CFRE

Every gift makes a difference in our ability to provide care to our families, friends, neighbors and visitors to our community. One recent patient described how Spear Memorial Hospital made a difference in her life.

"With no insurance, I expected to be either turned away or treated a bit differently; such was not the case. I was treated with compassion, care, courtesy, patience and respect. Because my treatment required me to return to the emergency department three times a day for five days...I met quite a few staff. Each of them... were not only friendly, but welcoming and focused on easing my pain and providing proper treatment. I can't thank them enough for their professional care..."

On behalf of our staff, board of directors and patients, we gratefully acknowledge the generous support of the following donors who made charitable gifts totalling \$105,501 between October 1, 2009 and February 28, 2010:
