**SMH's Dr. Reisert Voted a Top Doc by NH Magazine Readers**

PLYMOUTH, N.H.--- The April 2009 issue of *New Hampshire Magazine* features its annual listing of the state's top doctors and includes Dr. Jeffrey Reisert of Tenney Mountain Internal Medicine, a practice of Speare Memorial Hospital.

Dr. Reisert was among the top vote getters in the magazine's first ever readers' survey. According to Assistant Editor Erica Thoits, the online survey was added this year at the request of *New Hampshire Magazine* readers. Historically, they get to participate in other surveys, such as "Best of NH" and asked to have a vote in selecting the state's top doctors. She noted it also allows for recognition of doctors in smaller communities, which tend to be underrepresented in the traditional listing.

"It is nice to be recognized by patients for doing what you strive to do everyday—provide them the best care possible," says Dr. Reisert of being selected. In the article on page 63 is a quote from a reader:

*Dr. Reisert has personally called me at home to check on me more than once, and he also called my father after my mother passed away. My parents, in-laws, my husband and my children are all patients of Dr. Reisert's. He is one of a kind in this day and age. He truly cares about all his patients.*

SMH President/CEO Michelle McEwen, FACHE, says, "We are thrilled to see Dr. Reisert get the recognition he deserves for providing a very personal approach to care. We also appreciate *New Hampshire Magazine* for providing this opportunity for patients' voices to be heard."

Tenney Mountain Internal Medicine is located in Plymouth on Rt. 3A south of the Tenney Mountain Highway traffic circle. The practice is accepting new patients. Appointments can be made by calling (603) 536-6355.

Speare Memorial Hospital is a 24-hour, acute care, non-profit community hospital and health care provider serving Plymouth and the communities of central New Hampshire for more than a century.
