**Speare Memorial Hospital Offers Mammography Clinic**

PLYMOUTH – In observance of National Breast Cancer Awareness Month, Speare Memorial Hospital will again be offering a breast cancer screening and mammography clinic on Saturday, October 26 at the hospital in Plymouth. The cost is \$60 and will include a clinical breast exam and mammography test. Space is limited. Pre-registration is required by calling 603-238-2216 or 536-1043 x216.

This clinic is specifically for women over 40 that have no insurance and have not had a mammogram in the last year. “We place a great deal of emphasis on the importance of preventative medicine. We are providing this important diagnostic test for women who need it most at a very reasonable cost,” emphasized Kim Buford, Director of Social Services.

Speare Memorial Hospital is a small community hospital and health care provider serving the towns of Ashland, Bridgewater, Bristol, Campton, Groton, Hebron, Holderness, Lincoln/Woodstock, Plymouth, Rumney, Thornton, Warren, Waterville Valley and Wentworth for over a century.
